“That the culture care needs of people in the world are met by nurses prepared in transcultural nursing.” Leininger

February 10, 2026

Dear Supporter of Culturally Equitable Healthcare,

The Transcultural Nursing Society (TCNS) has spent more than fifty-one years advancing culturally congruent, competent, and equitable care that improves the health and well-being of people worldwide. As a nonprofit organization, TCNS continues this mission through research, education, practice, and leadership development and your support helps make this work possible.

As we look ahead, the need for transcultural nursing leadership has never been more urgent. Communities across the globe are experiencing displacement due to war, climate instability, food insecurity, and political unrest. Social determinants of health continue to shape outcomes in profound ways, and the limitations of global healthcare systems are increasingly visible. Transcultural nurses play a critical role in addressing these challenges, but we cannot do this work alone. Partnerships across disciplines and borders are essential to ensuring safe, effective, and culturally congruent care.

In 2026, TCNS will host its 52nd Annual Conference, Transcultural Nursing: Building Bridges for Global Health Equity, in San Antonio, Texas, October 14–17, 2026. This gathering will bring together nurses, scholars, educators, and global health leaders to explore strategies that strengthen culturally informed care and address the complex realities facing diverse populations.

Your sponsorship or donation directly supports this important event and helps TCNS continue its mission. Contributions assist with conference programming, dissemination of research, and the development of tools and resources that guide best practices in transcultural nursing. By investing in this work, you help advance culturally equitable healthcare in your community and around the world.

If you have questions or would like more information about how your organization can support TCNS, please reach out at any time. Additional details about sponsorship opportunities are available at www.tcns.org, and sponsorship information can be found at <https://tcns.org/programsponsors/>.

Your partnership brings us one step closer to achieving culturally congruent and equitable healthcare for all. Thank you for considering support for this vital mission.

Sincerely,

Lisa A. Dobson
